

REGION

WORLD

STORY

In this area you can list special features of the animals in your world. Are they all from the same phylum (all reptiles, or insects)? Do they have similar characteristic traits like sonar, magic, or luminous skin? Which animals are domesticated? Which animals are prize catches for hunters?

**FOOD-CHAIN**

You can list in the bubbles several different animals in each category, or even draw them in. This chart is not perfect, omnivores don't have their own categories for example. I'm leaving lots of space for you to make notes to compensate.

**ENVIRONMENT**

There is plenty of room in the big environment bubble and in this area to write or even draw the environmental conditions of this ecosystem. This is where you can bring in all the information from Day 2 & 3. Forest, field, sea, desert, mountain, tundra, lava flow, jungle, whatever you have created.
